

BEWARE

the OZARK HOWLER

MELÉNDEZ

CAMP BEAST

No.

07

NOTES

The Howler gets its name from the legendary cry that has haunted remote parts of Arkansas, Texas, Oklahoma and Missouri. The creature that it belongs to is said to be the size of a bear with long shaggy fur and twisting horns. According to reports, the unforgettable call sounds like a combination of too much Irish coffee and a very loose understanding of Icelandic pop music.
